

BLUEBIRD

111.861

6³/₄ x 8'''

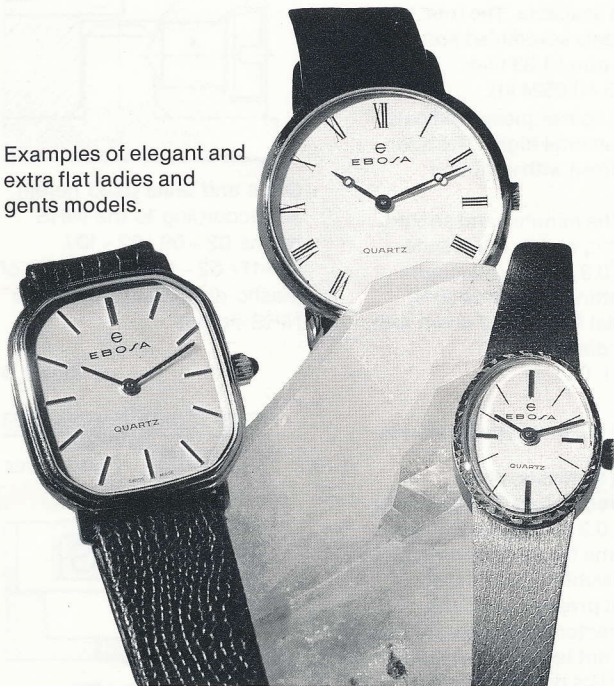

Electronic movement with quartz resonator, frequency 32 768 Hz, rotary stepping motor with 6 impulses per minute
Analog display without second

15,30 x 17,80 mm
(0,6024 x 0,7008 in)
H. 3,50 mm
(H. 0,1378 in)

5:1

Examples of elegant and extra flat ladies and gents models.

For the assembly and casing of this calibre, we have additional technical information and drawings free of charge at your disposal.

Parts list

No.	Description	No.	Description
10.020.07	Main plate, 1 jewel	31.041	Minute wheel
10.048.40	Train wheel bridge, 0 jewel	31.046	Hour wheel
10.210	Winding and setting mechanism cover	31.083	Cannon pinion with driving wheel
10.513.05	Electronic module	31.100	Setting wheel
10.580	Electronic unit support	31.121	Sliding pinion
20.570	Battery	51.020.21	Handsetting stem, S 0.90 mm (0,0354 in)
20.580.05	Rotor	51.050	Yoke
20.582	Stator	51.080.06	Setting lever
20.584.18	Magnetic screen	61.241	Hour wheel friction spring
20.590	Coil	80.210	Train wheel bridge distance piece
20.651	Battery insulator	80.244.18	Bridle - rivet
20.761	Bridle +	80.920	Stator pillar
20.763	Bridle -	81.335	Minute wheel stud
30.012	Intermediate wheel	81.337	Cannon pinion stud
30.013	Transmission wheel for intermediate wheel	81.368	Yoke stud
		83.342	Setting wheel stud

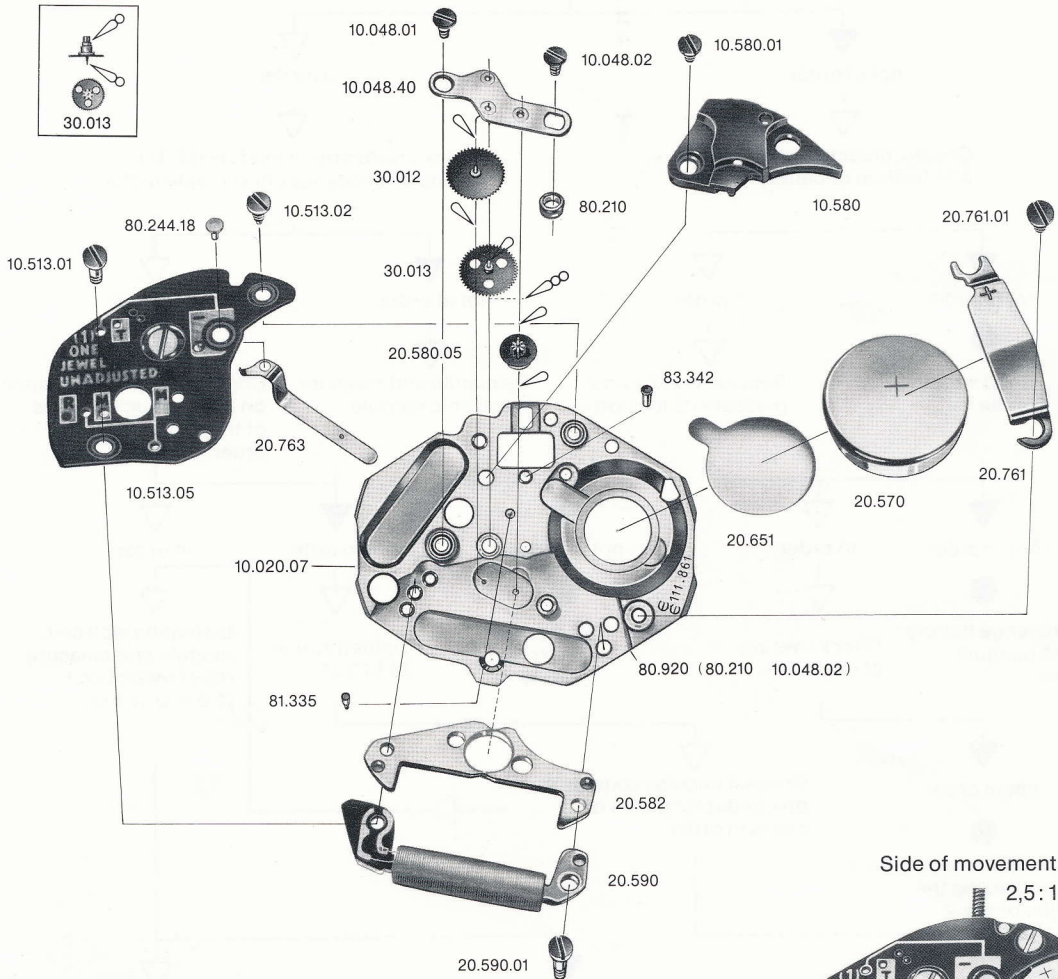

Screws

No.	Description
10.048.01	Screw for train wheel bridge (S 0,70 mm / 0,0275 in) short
10.048.02	Screw for train wheel bridge (S 0,60 mm / 0,0236 in) long
10.210.01	Screw for winding and setting mechanism cover
10.513.01	Screw for electronic module, long
10.513.02	Screw for electronic module, short
10.580.01	Screw for electronic unit support
20.584.01	Screw for magnetic screen
20.590.01	Screw for coil
20.761.01	Screw for bridle +
90.000.01	Screw for dial
