Little Torch Starter Kit

Our miniature welding torch maneuvers easily in areas impossible to reach with conventional torches. Produces a perfectly controlled, stable flame hot enough to melt metals, glass and ceramics with thread thin flames up to 6300°F. Color-coded oxygen and fuel gas lines and valves help prevent errors. Uses acetylene, propane and propylene based fuels. Kit includes aluminum alloy torch body, 5 copper tips, 6 feet of durable hose, adapters to your regulators, and complete instructions.
